

To everyone who has been involved within the Essential Design Group team and supported us over the years – thank you!

My wife and I began our business journey nearly 35 years ago. As we sit in our home today and write this letter we've reflected over these years that have went by so quickly. We think about the highs, the lows, the decisions we've had to make for our family and the support that we've received throughout the years.

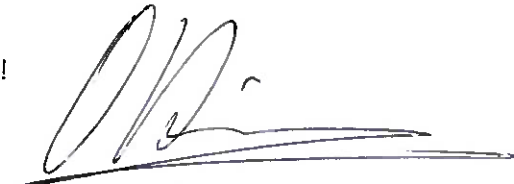

We hope that we've created a workplace where our team are happy, feel supported and motivated to put everything into the company like we have over the years.

We want to thank our team for their dedication and commitment towards Essential Design Group. We truly appreciate everyone's hard work and recognize your efforts and we thank you for doing everything you have to help the company succeed over the years.

We also want to thank our customers, the long-time and the new. To each and every person who has placed an order with the company - thank you! We see each person as a valued customer and appreciate your support and trust in our company to fulfil your manufacturing needs. Support from you all has helped our business grow and evolve over the years and for that we are extremely grateful.

We look forward to the future and are excited to see what's next in line for the Essential Design Group.

Thank you!

Hardy Higgins
